

SPORTS

with JOHNNY MARTIN

Reflections of a very enjoyable New Year's Day of Football:

Sugar Bowl—Yes, War Eagles, Auburn was beaten by a superior football team as "Snugg" Jordan, Pat Sul-

In Enterprise
See Joe Before
You Trade

livan, Terry Beasley, and the rest of the Tigers admitted. But, as you remember the performance of Jack Milder in a single game in New Orleans, don't forget the performances of Sullivan, Beasley, and the most exciting outfit Jordan has ever fielded during three years at Cliff Hare Stadium. Auburn was a truly great football team during this period, and one game should not change our feelings.

Orange Bowl—In my opinion, a game between the best two football teams during this period, and one game should not change our feelings.

Musso ran like the All-American he is. This team has a future, and "Beat" Bryant knows it. Look forward to powerful Crimson Tide in 1972.

The most interesting bowl game of all was the match-up between Florida State and Arizona State in the Fiesta Bowl. Gary Huff, the Seminole's quarterback, has to stand as the man first in line for next year's Heisman award. Although Coach Larry Jones' outfit lost 45-38, they never quit, and except for a few key penalties, would have been a winner. FSU will field a powerhouse in 1972.

Ed Martino got his first taste of big-time football in last Friday's East-West Shrine Football game. His statistics weren't very impressive, although he did show signs of becoming a professional running back. But could it be that the nation's leading ground game received little like he has never received before, causing him to fumble three times in six carries? No, didn't fumble. Let us not forget the days that Johnny

Dislikes Ford is blasting off to again break sales records this month and this year! HERMAN is TRYING TO WIN A TRIP AROUND THE WORLD AND EACH SALE COUNTS! SOME CARS LEFT AT THE OLD CHEAPER PRICES AND THE FEDERAL EXCISE TAX HAS BEEN REPEALED! SO GO ON IN RIGHT AWAY!

RADIO AND TELEVISION Repair. See Jerald's TV Repair across from Padgett's Oil for expert repair. 897-5213. Jerald Henderson. 1/6/tc.

It seems that deer hunting in South Alabama is better this year than ever before. Jackie Windham, a student at Troy State, bagged two over the Christmas holidays, and there have been reports of other successful drives in Coffee County recently.

Playing golf at the County Club over the holidays, I noticed that there is more and more interest being shown by the junior players in our community. In a matter of a few years, Elba will produce some of the best young players in our area if this interest continues.

Until next week, when the wives of all football "nuts" will gasp a sigh of relief at the final whistle of the Super Bowl.

Persons admitted to the Elba General Hospital during their period of December 28 through January 4 were the following:

Odesa Marler (expired), Arie McKinney, Lula Kendrick, Thomas Brooks, Betty Sasser, Elizabeth Prescott, Kate Moody, Emma Hall, Bertie Wilks, Dorothy Whitehurst, Ronnie Carter, James Hall, Rufus Ellis, Michael Amison, Rhonda Johnson, Shirley Miller, Jimmy Lou Smith, Kenneth Marler, Betty J. Boland, Mary Ruth Hooks, Daisy Edkins, Herman Powell, Paul Odom, Doris Besdoe, Thomas J. Gatlin, Johnnie Johnson, James Rodgers, Minnie Walker, Ruby Lee Bryant, Mary A. Cook, Lila P. Tyson, J. B. Mills.

Persons discharged during this same period of time were:

Odesa Marler (expired), Arie McKinney, Lula Kendrick, Thomas Brooks, Betty Sasser, James Hall, Rufus Ellis, Jimmy Lou Smith, Ted Vaughan, Dennis Morris, Lawrence Bowers, Jeffrey Tillis, Marie Faulk, Shannon Hargrove, Maxwell Hooks, Kenneth Marler, Ronnie Carter.

Never use highbeams in a snowstorm as falling snow reflects light, points out Liberty Mutual Insurance Company. Use the low beams and that way you may avoid an unforeseen accident.

Cherner Redistricting Plan Passed by Senate

55 AU BUSINESS TIPS 55

FACTORS MUST BE CONSIDERED IN CASH PLANNING

Have you ever been unexpectedly caught short of cash and had to suffer the embarrassment of having to run out and get a quick loan? Or does it always seem that one month you have sufficient cash, but the next month you are short? The cause of these problems may be uneven cash flow in your business. Cash flow is the flow of money into a business from sales and the flow of money out of the business when expenses are paid.

Some businessmen make the common mistake of assuming that the inflow in a given period of time (such as a month) is going to be sufficient to cover all the expenses in the same period. Often this is not the case, even though the mo-

ney coming into the business will be greater than the money leaving the business in the long run.

There are several reasons for the uneven cash flows. One is the time difference between the purchase of goods for sale and the sale of this merchandise. For instance, a retailer may have to begin stocking his store for Christmas early in the fall but the merchandise will not be sold until December. Thus the time difference can be as much as two or three months.

If sales are made on credit the time lag will be even longer because there are two delays in this situation: (1) the time between the

purchase of the merchandise and sale on credit (as described above) and (2) the time between the receipt of the payment from the customer on his account.

For proper cash management, the businessman must: (1) estimate how much and when his cash inflows (cash sales and payments on account) will be and (2) estimate the amount and timing of his expenses (to include all cash expenses). This can usually be done on a monthly basis and when the month's inflows are compared with the month's expenses, the month's cash excess or deficit can be determined. Finally, if several months are estimated at the same time,

it can be seen that an excess in one month may have to be saved and not spent in the next month. In the long run, the businessman must keep a cash reserve on hand at all times to cover unexpected emergencies or business opportunities. Lastly, the use of this method of cash management will allow the businessman to have a sensible borrowing plan. If it can be seen in advance that the business will need a short term loan to finance its sales, there will be ample time to shop around for the loan and to make arrangements for the loan before it is needed.

BRAINSTORMS

With Fern Cox

There have been no real serious talk about just how Coffee County, or any other county for that matter, will carry out the federal court redistricting plan. The judges said the Probate Judge would submit a plan in six months telling how he planned to implement the new district lines. Apparently has the same feelings I have on the matter—it is impossible and at best very impractical. However, for the benefit of those blessed with the responsibility, some one had better come up with a plan or we will have those federal judges (or that New York professor (egghead) sitting on our lapel).

THE ANDALUSIA STAR - NEWS

PRECEDENT SHATTERED

The disregard for county lines in the Federal Court ruling that legislative districts must be reshaped is a shattering of precedent.

In the specifics drawn by the panel of three U. S. jurists, Covington County will be divided, like all of Gaul, into three parts.

Neighboring Geneva County has held this distinction for years with Hartford, Samson and the city of Geneva heading each area.

Under the new Fed edict, Andalusia will be partnered with Red Level, Gantt, and Heath. Opp will be wedded to Coffee County, a piffance of New York. No loyal home folks will stomach with a smile.

Florida is sliced into Geneva's legislative district, on the House side, giving our friends to the south and east a new distinction. Now the Geneva politicians will be able to brag that they have gone Gaul "one better, and we will be divided into four parts."

This will assure Geneva a House member but you can wage a war to get the House side of the district.

Senator Crum Foshee keeps only his home-county of Covington but adds Geneva, whom he once represented. Theoretically, for Foshee, it is a loss of Butler, Lowndes and Crenshaw, with an addition of a large slice of Coffee, plus areas of Dale and Houston.

The three Federal judges, issuing the redistricting order, acted on a plan drawn by Dr. David Valinsky, a professor of the City College of New York.

To our knowledge, Dr. Valinsky has no authority on Alabama's Wiregrass. We doubt it he has ever visited this sun-kissed and God-blessed land.

There was one American revolution torched by "taxation without representation." Dr. Valinsky's work is legislative gerrymandering with no reference to local government that has prevailed for more than a century. And without Dr. Valinsky ever having worn an Apollo (Arrow) shirt produced by Alitex, either.

eral judges (or that New York professor (egghead) sitting on our lapel).

The Coffee County Cattleman will hold their annual meeting tonight and if you like good eating—quickly to the Coffee County Cattleman. There are a lot of folks put on a good feed!

Those who have attended one or two of these cattleman meetings have noted the large number of politicians who get in on the festivities. The dining table is spotted with elected officials and biased with passed through the food line and these votes influence many others. . . anyway, that is the opinion.

Tom Abraham, Plant Manager of Kleiner's in Elba.

Green Thumb Tips

When you order seeds this year why don't you consider the collections offered in the catalogues?

There are collections offered of vegetables such as peas, consisting of several varieties to be planted at one time for a continuous crop.

Any of these will save you space in your garden. Small seedlings, just sprouted, are not so bulky as the plants that grow in the sun.

50 years on a man's job...

Despite her size, 87-pound Mrs. Ada Paul Vess has been working at men's jobs since the turn of the century. After a lifetime of railroad, masonry, meat cutting, lumbering, carpentry, plastering, and painting, she's collecting monthly social security retirement benefits. Now, Mrs. Vess plans to keep right on working at her present trade—house painting—on a part-time basis.

If you want information on working while collecting social security, contact any social security office.

Economic Stabilization

Q. My landlord has just raised my rent, but won't show me any records justifying the increase. Can I refuse to pay?

A. Tenants may refuse to pay added rental charges unless the landlord makes available records showing the base price for the unit, and the reason for any increase between the base price and the maximum price he was allowed to charge during the freeze.

Q. Does an employer have to apply to the Internal Revenue Service for permission to make retroactive payments for services performed during the freeze by employees receiving less than \$2 per hour straight time or for one-time fringe benefits increases which came due during the freeze?

A. Yes, tuition, as well as for one-time fringe benefits increases which came due during the freeze, must be reported to the Internal Revenue Service.

Q. Are state unemployment compensation payments subject to advance price increases and file quarterly reports to the Internal Revenue Service?

A. State unemployment compensation payments are not subject to advance price increases only if submitted in the meaning of the governing statute and are not controlled. This is true whether or not a particular

state's program is funded in whole or in part by employer contributions.

Q. Do the economic controls apply to college tuition charges?

A. Yes, tuition, as well as for one-time fringe benefits increases which came due during the freeze, must be reported to the Internal Revenue Service.

Q. Does an employer have to apply to the Internal Revenue Service for permission to make retroactive payments for services performed during the freeze by employees receiving less than \$2 per hour straight time or for one-time fringe benefits increases which came due during the freeze?

GENERAL AMNESTY SHOULD NOT BE GRANTED DRAFT DOGERS

Congressman Bill Dickinson

Let there be no mistake, a general amnesty or clemency should not be granted under any circumstances, to draft dodgers and deserters. This is my firm conviction, one which is shared by President Nixon, the majority of both houses of the Congress and by the overwhelming majority of the American people.

In spite of these sentiments, a different view of draft dodgers has been expressed by presidential aspirant and South Dakota Senator, George McGovern, in an attempt to repatriate those who elected, for whatever reason, to flee the country rather than serve in the armed forces, he suggests that we should welcome them back with open arms—no strings attached. His ability to forgive and forget does not take into account the grave injustice his plan would perpetrate against the hundreds of thousands of men who have sacrificed the prime of their youth and risked their lives to fulfill their military obligations. How can McGovern or any other man in a responsible position of public trust offer such a solution to these military conscripts who conscientiously fled this country with a foreknowledge of the consequences? How could one who favors amnesty answer a mother whose son had had doubts, but went to Vietnam and was killed?

A plan for general amnesty

undermines the authority of the government and implicitly condones defiance of the law. It encourages those wavering on the brink of rebellion to take the easy way out and why not, if they will suffer no penalty and virtually be rewarded for their defiance. A general amnesty would set an extremely dangerous precedent which could be invoked by any individual dissatisfied with our future defense commitments. As a nation, we could not survive with a policy of permissiveness within our armed forces.

Draft evasion is a criminal offense punishable by a

5-year prison sentence and a \$10,000 fine. Young men who have chosen flight must be prepared to accept the law's penalties for their actions. If they are not willing to do so, we should gladly tell them to continue their self-imposed exile in Sweden, Canada and other havens. The fact is, we need them now more than ever. To my way of thinking, there are few, if any, American people who have served their country well and bravely in wartime who would want to hand the law to accommodate this dissident minority of undergrables.

Major R. D. Easters, son of Mrs. Eva Easters of Elba, who has been in Japan for the past two and one-half years, has recently been promoted to 1st Lt. Colonel.

REMEMBER WHEN 30 Years Ago

JANUARY 15, 1942

The Coffee County teachers held their monthly meeting for study of the curriculum methods in the Young Home Saturday evening, January 3, when the guests included a group of college friends and visitors.

Approximately 25 farm families, including both landowners and tenants, will necessarily be evacuated from their homes in Coffee County by the coming of the army camp to the Pea River State Forest.

On January 10th, 1942, a happy day was spent at the home of Mr. and Mrs. J. J. Smith, Route 4.

The Three-In-One Study Club was entertained for the first meeting of the new calendar year in the home of Mrs. Sam Rowe Tuesday night, January 20th, 7:30 o'clock. Given by the Zion Chapel men's and women's vocational evening classes.

Come out and enjoy one and one-half hours of singing, dancing, jokes and games. All that goes with a good zebra-tail and a mini-trail.

Misses Nell Rowe, Elba, and all that goes with a good zebra-tail and a mini-trail.

work started Monday morning by the Elba Church here a long time, is considered a modern home on the lot. South of the church weather and fruit culture, building.

He said Tuesday that he

At the annual meeting of the stockholders of the Elba Exchange Bank all officials and directors were re-elected as follows: President, John E. Brunson, Jr., G. Bragg, vice president, J. W. Brock, cashier, Mary A. Lee, assistant cashier, Oscar Vaughan, Jr., assistant cashier.

Rev. M. L. Scay, new pastor of the Elba Baptist Church, and his family arrived in Elba Tuesday from Linville.

Additional dollars will be poured into Elba trade channels this week as a general five per cent wage increase goes into effect for all Doney Trailer employees who are paid on an hourly basis.

Mrs. J. D. Whitman took over as society editor of The Clipper this week.

Major R. D. Easters, son of Mrs. Eva Easters of Elba, who has been in Japan for the past two and one-half years, has recently been promoted to 1st Lt. Colonel.

Magnolia Garden Club Meets January 16

The Magnolia Garden Club met on January 6th Mrs. Douglas Easters in her home on Davis Street. After the delicious refreshments were enjoyed by the members present, Mrs. Willard Martin, Club President, called the meeting to order.

The Gardner's Creed was read in unison. The secretary, Mrs. Ben Brock called the roll and read the minutes of the December meeting.

The Special Projects Committee reported that repair work is in progress around the Court Square Fountain. The Christmas

perform in the library daily.

Following the business meeting, a Christmas party was enjoyed by the members present. After exchanging gifts of books, the members played several games and refreshments were served.

The Zion Chapel High School Library Club held its December meeting on Wednesday, Donna Nelson, president, presided over a short business meeting in which Judy Allen was elected club reporter and Mrs. Sylvia Overy, sponsor, outlined the services each member can

does not remember a winter like this one—cold two or three days and then a warm spell lasting a week or more.

At the annual meeting of the stockholders of the Elba Exchange Bank all officials and directors were re-elected as follows: President, John E. Brunson, Jr., G. Bragg, vice president, J. W. Brock, cashier, Mary A. Lee, assistant cashier, Oscar Vaughan, Jr., assistant cashier.

Heavenly Food For A Special Valentine

Something from the kitchen is something from the heart. Your special valentine will know he has a special place in your heart when you serve this heavenly Fluffy Angel Meringue.

A cloud of pineapple-orange filling blended with whipped cream floats in a pink heart shaped meringue shell is made easily by shaping the unbaked meringue on a paper pattern placed on a baking sheet and forming sides to hold the filling, then baking.

Prepare the fluffy filling by adding crushed pineapple,

grated orange peel, orange juice and sweet creamery butter to thickened pineapple juice then, after chilling, folding in whipped cream. Garnish this delectable valentine with a red strawberry trifle. Make it a romantic two-some or invite his favorite friends to share this valentine dessert. Either way he'll know it's special.

Fluffy Angel Meringue
Meringue: 3 egg whites, at room temp., 1/2 teaspoon cream of tartar, 1/4 teaspoon almond extract.
Dash of salt
3/4 cup sugar
Red food color
Pineapple Filling: 1 can (1 lb. 4 oz.) crushed pineapple in unsweetened juice
3/4 cup sugar
1/4 cup cornstarch
Dash of salt
3 egg yolks, slightly beaten
2 teaspoons grated orange peel
3 tablespoons orange juice
2 tablespoons butter
1 cup whipping cream, whipped
Fresh strawberries, sliced
To prepare Meringue: On sheet of heavy brown paper draw a heart 9 inches long and 9 inches at widest point. (A heart shaped cake pan makes a handy guide.) Place on baking sheet; set aside. In a small mixing bowl beat egg whites until frothy. Add cream of tartar, almond extract and salt; beat until soft peaks form. Add sugar, tablespoon at a time, and continue beating until stiff.

When she is not teaching, Carmen is busy learning. She studies piano and drawing, and plans to take singing lessons. Her most original sketch is of an animal she has invented and christened the "Eladogeddie." Carmen's biggest ambition is to meet Clint Everett, star of the NBC-TV series "Medical Center." Knowing Carmen, she'll manage to get her wish. After all the things she has achieved so far, meeting a television star should be simple enough. And even if it isn't, she's glad to tell others about her experience.

And what does Carmen say? "Let's go and teach people!" With her outgoing personality, she is a born teacher. On one trip, she met a reporter who didn't know how to play checkers. Carmen pulled out her portable checkerboard and sat down at once to remedy the situation. "I tried to keep it simple," she explains, "and I only beat her two out of three games."

When she is not teaching, Carmen is busy learning. She studies piano and drawing, and plans to take singing lessons. March of Dimes Poster Girl: The Smartest Kid On The Block

By ANN FORER

Lively 8-year-old Carmen Dones is certainly a contender for the title of "Smartest Kid On The Block." She has a grown-up's vocabulary and describes herself as "a part-time professional writer, when I'm not being an expert on thunderstorms and tornadoes."

The only problem is that in Carmen's neighborhood in Fort Wayne, Ind., the streets wind and turn through a residential development, so there aren't any real blocks. But if there were, Carmen would be the smartest kid on her street.

"Carmen was born smart," confides her father, Dr. Antonio Dones. "She must have been smart just to survive."

In fact, Carmen's survival was based not only on her own intelligence and determination but on the modern medical techniques which are saving the lives of countless children each year. For Carmen is one of some 250,000 children born in the United States each year with birth defects. She received prompt professional attention and today many of her problems have been solved.

Carmen was born with myelomeningocele (open spine) which was ruptured at birth and required surgery within the hour. Her birth defect caused spinal cord and nerve damage which has resulted in paralysis of her legs below the knees. Carmen now uses crutches and leg braces, and has even taught herself to walk a few steps without them.

Helping Others
Soon after birth Carmen also developed hydrocephalus (water on the brain) and had to have several shunt operations to drain off excess fluid. This condition was arrested when she was 4 years old. Today she is an outgoing, intelligent child with above average intelligence. She also can play musical instruments including playing on xylophone and slates and riding a pony at the zoo.

Others are not so lucky. Some birth defects can be prevented, and many can be treated, but often young lives are lost before they begin. In others, the effects of birth defects are so severe that life is only half-life, with the handicapped youngster confined to a wheel chair or doomed to per-

Carmen Dones, 1972 March of Dimes Poster Girl, and her father, Dr. Antonio Dones, follow the news. They also enjoy checkers and playing in the park.

manent blindness or deafness. Young as she is, Carmen feels that she has a responsibility toward these less-lucky children. Maybe one of the burdens of being smart enough to read *The Wall Street Journal*, learn three languages and be head of your class is understanding that it is not enough to help yourself. You must help others, too.

Symbol
As 1972 National Poster Child for the March of Dimes, Carmen symbolizes the fight to prevent birth defects. This is a big job. It means travelling all over the country and giving up some of the things she likes best, especially her weekly Browne Scout meetings and evenings at home playing majong and parcheesi with her father. But Carmen thinks it's worth it, and so do her parents. "We are doing this to help others see what can be done for children like Carmen," says Dr. Dones. "We have seen to it that she has had the best medical and surgical care, and we feel we have proven that there is a chance for the handicapped child to be productive and make a vital contribution to society. Now we want to show the rest of the world what the results of care and attention can be. Carmen understands that she represents what is possible, and she loves her job. She's glad to tell others about her experience."

And what does Carmen say? "Let's go and teach people!" With her outgoing personality, she is a born teacher. On one trip, she met a reporter who didn't know how to play checkers. Carmen pulled out her portable checkerboard and sat down at once to remedy the situation. "I tried to keep it simple," she explains, "and I only beat her two out of three games."

When she is not teaching, Carmen is busy learning. She studies piano and drawing, and plans to take singing lessons. Her most original sketch is of an animal she has invented and christened the "Eladogeddie." Carmen's biggest ambition is to meet Clint Everett, star of the NBC-TV series "Medical Center." Knowing Carmen, she'll manage to get her wish. After all the things she has achieved so far, meeting a television star should be simple enough. And even if it isn't, she's glad to tell others about her experience.

By Tom Casaday, County Extension Chairman

TAX REFUND
I certainly hope that all Coffee County farmers are taking advantage of the gas-oline refund provided by the state. This amounts to 6¢ per gallon for all gasoline used in tractors, combines, hay balers and other farm machinery. A lot of folks

are not applying for the refund. It will only take a few minutes to fill in the simple form that is required by the state. Everyone who failed for the refund last year will automatically get forms in the mail. In fact, they should have already received them. If you have not applied before or have misplaced your form, come by our office in Enterprise and we will give you a copy of the form. These can be filed any time between January 1 and March 31.

PEANUTS
E. L. Dean, the county office manager of ASCS and I have a lot of fun trying to estimate county peanut yields. Both of us were fooled this time. For awhile he thought the county yield for 1971 would not be much above what it was last year which was 1560 pounds per acre. I felt like they would be at least 1750 or 1800 pounds, but I did not want to get too optimistic. One reason for this is that Ferrell Reeves, one of my bankers, says that I am always too optimistic. So considering that I was living with this label, I hesitated to predict the yield.

Just last week Dean, who keeps a very accurate record, came in with the figures which showed that our average yield in Coffee County in 1971 was 2027 pounds per acre on 25,119 acres. Of course, this isn't nearly as good as Houston or Geneva Counties, but our Coffee County farmers are very proud of this record.

GRASS
Dr. J. W. Gossett of our Auburn University staff said recently that he had seen a successful brood cow operation that did not have a good pasture program. I remember a lot of good Coffee County cattle producers who succeeded in a good way in the cow-calf business because they had good pastures.

I am somewhat afraid that our pastures may disappoint us this year if we don't fertilize properly. Last year we had an abundant rainfall and pastures produced a lot of grass. It could be that a lot of nitrogen, phosphorus, and potash left the soil this

year. For this reason, I want to urge all cattle producers to soil test pasture land and then follow recommendations. As Dr. Gossett says, "We need to wear more dollars per acre and per acre and per calf." If you are a cattle producer, can you afford not to have abundant grass?

UNDERSIRABLE PLANTS
J. D. Westcott of Route 1, Coffee Springs, came in with a handful of wild mustard a few days ago. He said it was about to take his place, and he wanted to know some way to keep it under control. I think that a lot of folks have the same problem. This wild mustard won't be a serious problem in corn land if the land is turned and prepared as usual before planting. However, if you have a problem with this on land that is not to be planted, I would like to get rid of the plants, 2, 4-D at about 1 1/2 pounds per acre will be very effective. Sometimes you may have to put on two applications to completely kill the plants.

Incidentally, there are several fairly new materials on the market which will keep undesirable grasses and weeds from choking up fence rows and areas around buildings and other places that you want to keep clean. On a lot of farms where we got good rainfall, weeds and undesirable plants and grasses just about took over.

FISHERIES BIOLOGIST
Merrill Nail, the fisheries biologist of the Alabama Department of Conservation does an excellent job in identifying diseases of fish. His office is located on East Lee Street in Enterprise. As we grow in the catfish business, more and more people will have disease problems. Mr. Nail wants to help all of the growers as much as possible. He told me a few days ago that only live fish should be brought in for examination. He has the equipment at his office to help in diagnosing the trouble.

It is important to get a professional opinion on the disease and then follow up on treatment.

times, you feel you can afford something, but you really can, if you make an effort to reduce unnecessary buying.

The first area in which you can begin cutting is "usually food." But be sure the nutritional quality of your family diet doesn't suffer. The things to look for when managing food dollars are the costs of treats, poor planning or no menu planning.

Clothing dollars are often wasted by buying poor made clothes or fabrics or improper care of clothing. Children often help increase leaks. Too many handouts or no plans for their expenses use money quickly.

A check of the home and its operation may reveal several money leaks. The house larger than necessary? Is there unnecessary use of electricity? Is money being wasted because of poor insulation, upkeep or repair? Finally, you should also consider the type of insurance you have and the number of things you buy on time at high interest rates.

A good look at spending patterns can indicate where

your money is going and help you repair money leaks.

GREASE STRAINER
Do you have an old percolator with a coffee basket? If so, this makes a neat-looking grease strainer. If the container is neat enough to keep on the stove fire, if not, spray paint it with your favorite color.

Four favorite foods will be plentiful in January: Split peas, brainer-ryers, potatoes and potato products and apples. That's a lot of good news for anyone interested in food, the steaming hot "pease-porridge," or split peas, especially on blustery winter days. Serve it in mugs or bowls topped with a few sautéed winter slices.

Skillet cooked chicken is easy and savory, simmer or orange juice, or a can of tomato sauce. Add seasonings, and chopped onion or green pepper as you wish. Try one of the many chicken-in-a-skillet recipes in your favorite cookbook, or create a new recipe and enjoy some money-saving eating.

Submit up potatoes in tasty style. Spark whipped potatoes with crisp cabbage crumbles. Top a steaming baked potato with a ripe olive, a dash of salt, and a sprinkle of fresh French fried onions with green Parmesan cheese.

Apples impart color and freshness to winter meals, and in accordance with the law on the apple when doing to add color to a Waldorf salad, to mix with cabbage, or to combine with citrus sections for a fruit cup.

SAID FORGOTTEN WILL be made under the terms contained in said mortgage, and in accordance with the law in causes made and provided for the purpose of paying the indebtedness secured by said mortgage, all unpaid taxes or special assessments, together with the expense of foreclosure, including a reasonable attorney's fee.

SPORTS

with JOHNNY MARTIN

Armchair quarterbacks, prepare for your last big test of the season. Super Bowl VI, between the young Miami Dolphins and the veteran-laden Dallas Cowboys, will provide the entertainment for the last important Sunday in professional football this year. Although the players as far as money is concerned, this game seems to me to be an anti-climax to another season. Football seems out of season after New Year's Day bowl games last from sundown until sundown. Nevertheless, this one deserves a look because the teams are so-called "Gin-derralla" stories.

The Miami Dolphins, a perhaps the most impres-

don (former Alabama star) along with veteran Chuck Howley, provide the best coverage of any linebacking crew in the league. The quarterback battle should be one of the most interesting developments of the game. Bob Griese and Roger Staubach are two of the most intelligent people ever to wear a football uniform. Neither will pick the opposing defense apart, but both will find weaknesses and capitalize on them. The biggest factor in the game will be

which quarterback has the "hot hand." I'll go with the Dolphins, 24-13. It will be interesting to see Joe Frazier against Terry Daniels this Saturday in New Orleans. This will be the first time Frazier has fought since his March bout with Muhammad Ali. However, the most interesting question about the fight is not who will win? but "how long will Daniels last?" If Joe is in good shape, I'll guess three rounds. If not, it could go for six or seven

at any rate, Terry must really need the money. The National Collegiate Athletic Association voted last Saturday to allow freshman athletes to participate in varsity basketball and football games. It had previously made freshmen eligible to participate in all spring sports events. Technically, the new rule means that first year players are eligible only for past season and national championship events. Regular season competition is still left up to

the conferences and schools involved. Personally, I don't look for the Southeastern Conference to use freshmen in their varsity programs in the near future considering how many most coaches are of playing sophomores.

I'll have to sympathize with the housewife who thinks that football season is something that can be done with the family. After the Dolphins and the Cowboys play for "all the marbles," let's play golf, watch a movie, ride horses, etc., etc. . .

MR. AND MISS BOLL WEEVIL, 1971-72. Students at Enterprise State Junior College elected last Wednesday, as campus favorites Pat Hatcher, daughter of Mr. and Mrs. E. H. Hatcher, Jr., Elba, a sophomore majoring in Journalism, Homecoming Queen in 1971, and second runner-up in the Miss OESC beauty review this year; and Bobby Bright, son of Mr. and Mrs. John H. Bright, Ozark, a sophomore majoring in pre-law, and vice president of the Student Government Association.

March Of Dimes Drive Is Now Underway

Young people in Elba are bringing the generation gap to a close. For the second year, March of Dimes TAP students (Teen Action Program) are participating in the annual January fund-raising campaign to prevent birth defects.

On January 15, Elba TAP students set up four road blocks throughout the city, collecting a total of \$569.92. TAP volunteers look beyond themselves and beyond today. They realize that they are the parents and protectors of tomorrow's generation. And they are willing to fight for the right of every newborn to be born free of birth defects.

An American tradition will continue on Thursday, January 20, as March of Dimes volunteers ring doorbells on behalf of the Mothers March against birth defects.

Mrs. Chip Westbrook, chairman of the annual drive, urges wholehearted support of this appeal to improve

quality of life at birth. Mrs. Westbrook cites the rubella vaccine Rh serum and rapid advances in treatment at birth as birth as exciting progress in the quest for a healthy birthright for all children. When your doorbell rings tonight, answer it. You won't find a salesman, a repairman, or a landlord. You will find a fighter. You can recognize this fighter by the badge that she wears-- "Mothers March for the March of Dimes."

The Cattleman's Association will be marching in Elba today from 12 noon until 5 p.m. Volunteers will turn their money Thursday night at the First United Methodist Church Fellowship Hall 7 to 9 p.m.

Arts Council Announces Local Grants

Local Grants

The Alabama State Council on the Arts and Humanities has officially announced a program assistance grant for the Southeast Alabama Arts Association of \$1000.00. The grant is for the support of the cultural series offered by the SAA to the people of Enterprise Elba, Daleville, Ft. Rucker, Ozark, samsom, Geneva, Hartford, Opp, Florida, and New Brockton.

Mr. Lamar Rainer, president of the People's Bank of Elba, is one of the members of the State Arts Council from this area.

Dr. Gus Farris Opens Office In Helena

At 29, Gus Farris, of Elba, has just completed his internship and 10 months of surgical residency at the Baptist Medical Center in Birmingham. All his life Gus has hoped of becoming a doctor in a small town, and at last his hopes have become reality. He went for an interview on December 3 to the small town of Helena, just 18 miles from Birmingham. He found that Helena's only doctor had had a stroke and would not be resuming his practice. An opportunity such as this was what Gus had been looking for, a little city life with the feel of the country.

He had this to say of the opportunity, "My wife Sue and I are just tickled to death about this."

Coffee Cattlemen Elect New Officers

The Coffee County Cattlemen's Association held its Annual Meeting Thursday night, January 13, 1972, at the Elba Hotel.

JOSH McDOWELL TO SPEAK AT TROY

Josh McDowell, International Traveling Representative for the Campus Crusade for Christ, will be on the Troy State University campus Sunday and Monday (Jan. 23 and 24). On Sunday at 9 P.M. in the McCarty Auditorium, he will speak on the topic "Maximum Sex", while Monday morning at 9:30, he will address the student body on "Errors in Student Revolution" in Smith Auditorium.

McDowell spoke to more than 250,000 collegians on 70 United States campuses last year and, in the past five years, has spoken on over 400 campuses in 35 countries.

Both sessions at TSU are open to the public and there is no admission charge.

TROY STATE DEAN'S LIST IS RELEASED

The students from this area who made the Dean's List at Troy State University last Fall Quarter are as follows: Susan Bragg, Elba; Deborah Hootcutt, Elba; Nora Hornsby, Jack Mena Stevens, New Brockton; and Betty Windham, New Brockton.

UNIVERSITY OF ALABAMA DEAN'S LIST ANNOUNCED

A total of 1102 students enrolled in the Fall semester at the University of Alabama made records of between 2.5 (B plus) and 3.0 (A). Dean of Admissions Hubert W. Mace announced today. Of these, 381 made all A's.

The Dean's list by county shows fifteen from Coffee County. Those from this area include: Walter Joseph Crook, Elba; Nina Hazel Rowe, Elba; and Danny Paul Wise, Kinston.

ELECTRICIANS CLASS SET AT OPP TRADE SCHOOL

The National Code will be the main topic of discussion for the night classes which will begin at MacArthur State Technical Institute in Opp on February 3, 1972.

The objectives of the course will be:
1. To teach the electrician to read the National Electrical Code.
2. To up grade the electrician by reviewing the changes in technology, methods of installation and new electrical materials.
3. To aid each electrician in developing a better understanding of the 1971 code.

Classes will meet on Thursday night of each week from 7:00 to 10:00 in the Industrial Electricity Department for 12 weeks.

For additional information contact MacArthur State Technical Institute, p.o. box 247, Opp, Ala.

LLOYD CROOK TO SPEAK AT WESTSIDE

Mr. Lloyd Crook, consultant of mathematics for the State Department of Education in Montgomery, will be a guest speaker at Westside Baptist Church next Wednesday night, January 26, at 7:30.

Mr. Crook will be speaking on the many types and the uses of drugs.

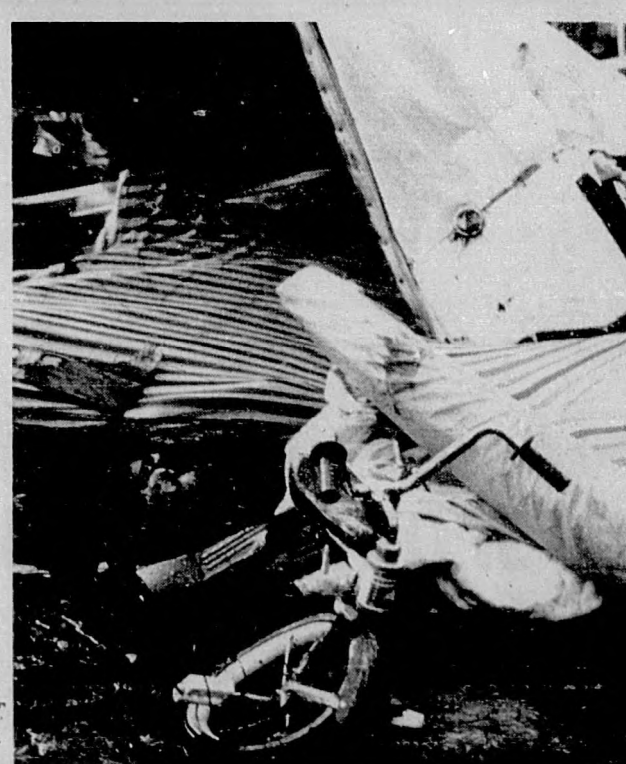

Everybody has a special invitation to attend this special service.

TORNADO SCENES LAST THURSDAY IN ENTERPRISE

NEW HOURS ARE ANNOUNCED BY VETERANS OFFICER

John Nicholson, Veteran Service Officer, announces a change of office hours. He will now be in his office from 8:30 to 4:30. The location, Courthouse Annex remains the same.
